## Indiana Violent Death Reporting System

### Reporting Child Violent Death

The Indiana Violent Death Reporting System will capture 100% of violent death incidents among children in Indiana beginning January 1, 2015 by utilizing and enhancing the work done through Child Fatality Review (CFR).

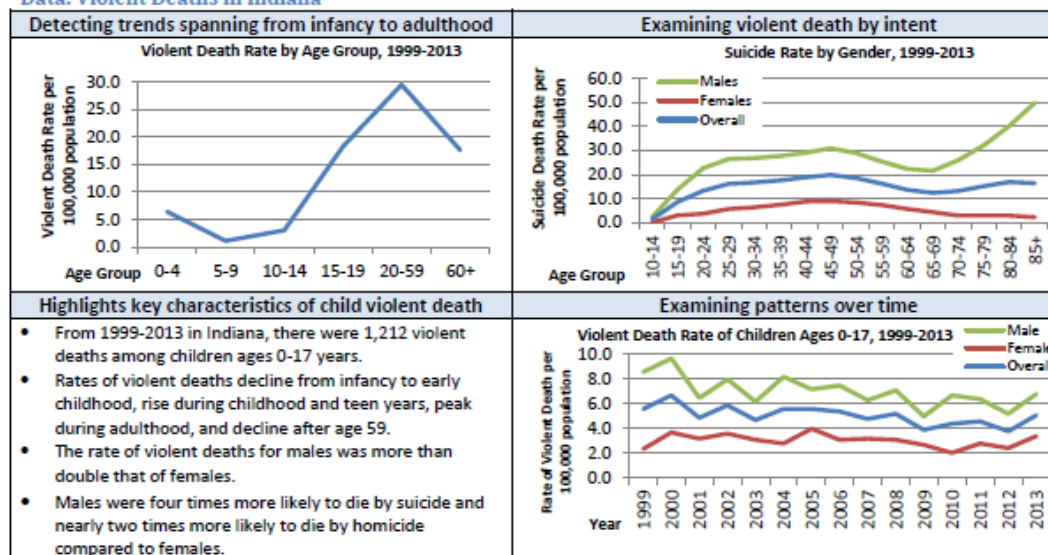

#### Overview: INVDRS

- Collect comprehensive, objective, and accurate population-based information on victims, suspects, weapons, and circumstances related to homicides, suicides, unintentional firearm injury deaths, legal intervention deaths, deaths of undetermined intent, and deaths due to terrorism.
- Combine data from multiple sources, including death certificates, coroner records, law enforcement reports, to increase scientific understanding of violent injury to be translated into prevention strategies for state, local and national efforts
- Contribute de-identified data to the National Violent Death Reporting System (NVDRS) funded by the Centers for Disease Control and Prevention, National Center for Injury Prevention and Control

#### Overlap: INVDRS and Child Fatality Review

INVDRS	INVDRS & CFR	CFR
<ul style="list-style-type: none"> <li>• Focuses on state-based data collection and dissemination</li> <li>• Captures death certificate data from 100% of Indiana counties</li> <li>• Contributes data to NVDRS in conjunction with 31 other states</li> </ul>	<ul style="list-style-type: none"> <li>• Use confidential reporting system to collect data for analysis</li> <li>• Examine extensive background and circumstance information on victims, suspects, relationships, weapons, and life events related to the incident to identify examining associated risk factors and warning signs to prevent future death</li> <li>• Shared common data providers, users, and stakeholders for increased utility and completeness</li> </ul>	<ul style="list-style-type: none"> <li>• Focuses on local community and statewide action</li> <li>• Local teams are mandatory in all counties</li> <li>• Contributes data to National CDR Case Reporting System on a team by team basis</li> </ul>

#### Data: Violent Deaths in Indiana

#### INVDRS Advisory Board:

The success of the implementation and utilization of INVDRS relies upon its partners and Advisory Board (AB) members. The AB will:

- Focus on the technical aspects of developing and implementing the reporting system
- Provide access to data (if applicable) and help develop solutions to identified barriers
- Advise on the publication of useful and actionable reports and fact sheets

# End of Year IPAC Survey

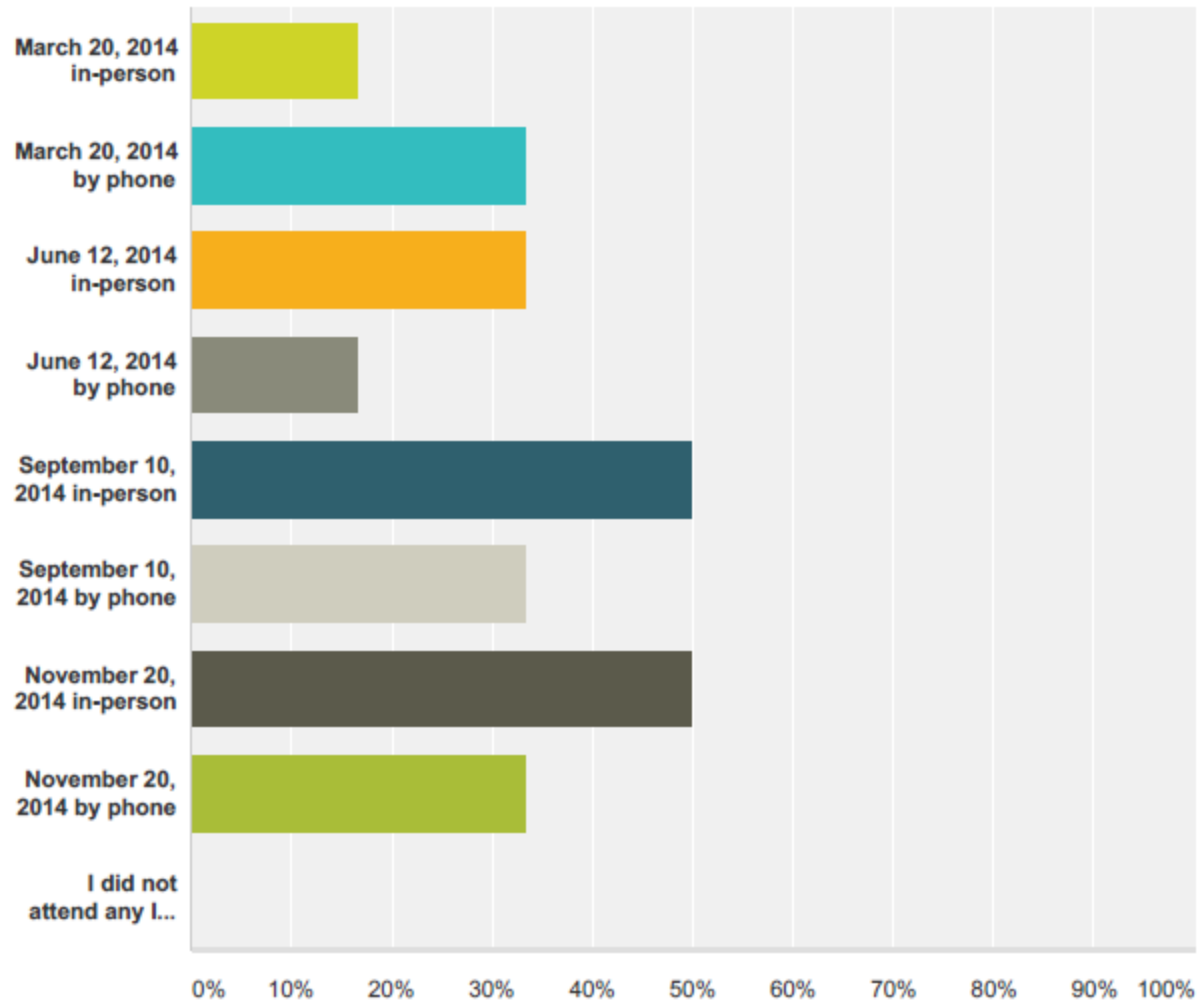

- Take away message:
  - More data sheets/handouts at meetings
  - *Rural health* to be included in mtgs & email updates
  - More expert presenters
    - Range of topics
  - Email updates
    - Traffic Safety/Motor Vehicle Collisions
    - Infant Safe Sleep/ Infant Mortality
    - Sports Injuries

Indiana State  
Department of Health

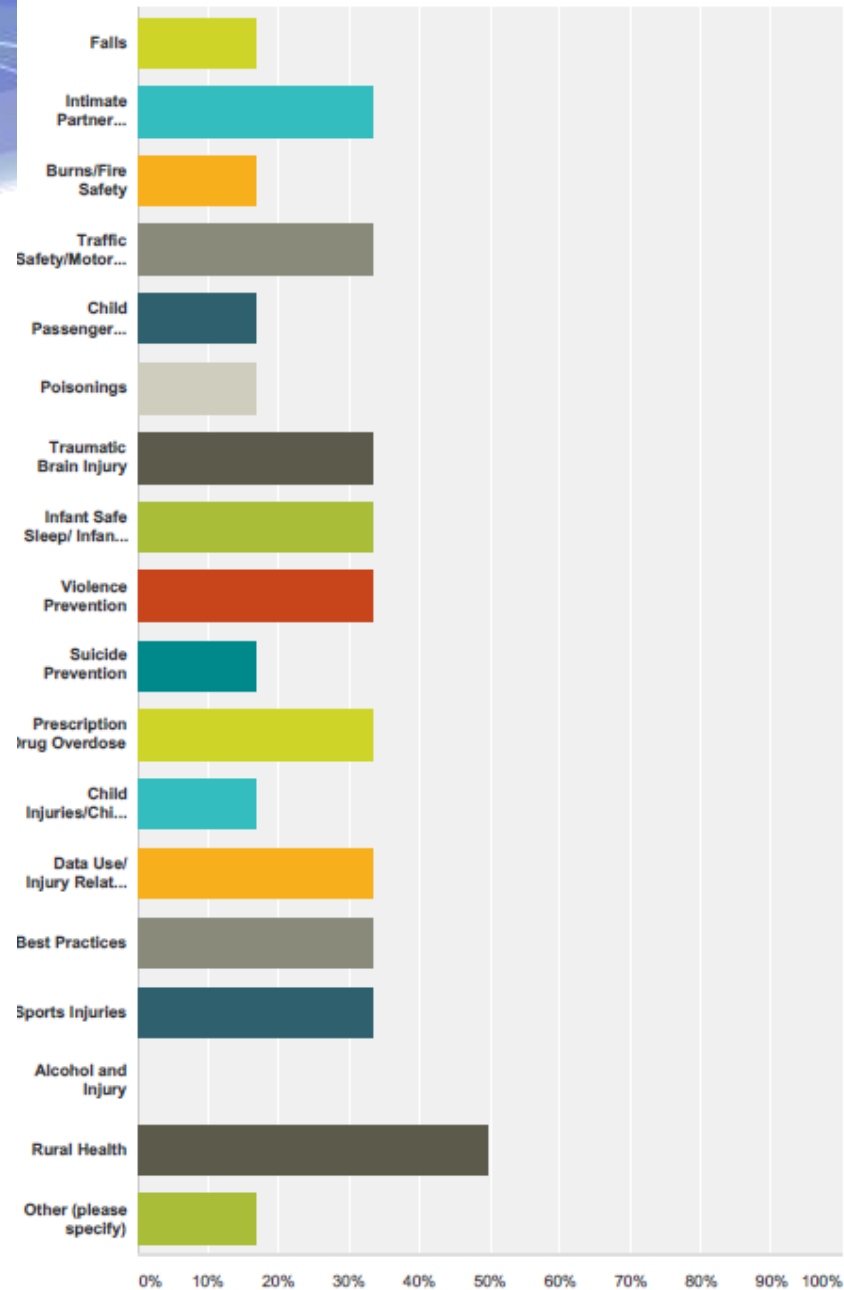

## Q1 Which of the 2014 IPAC quarterly meetings did you attend?

Answered: 6 Skipped: 0

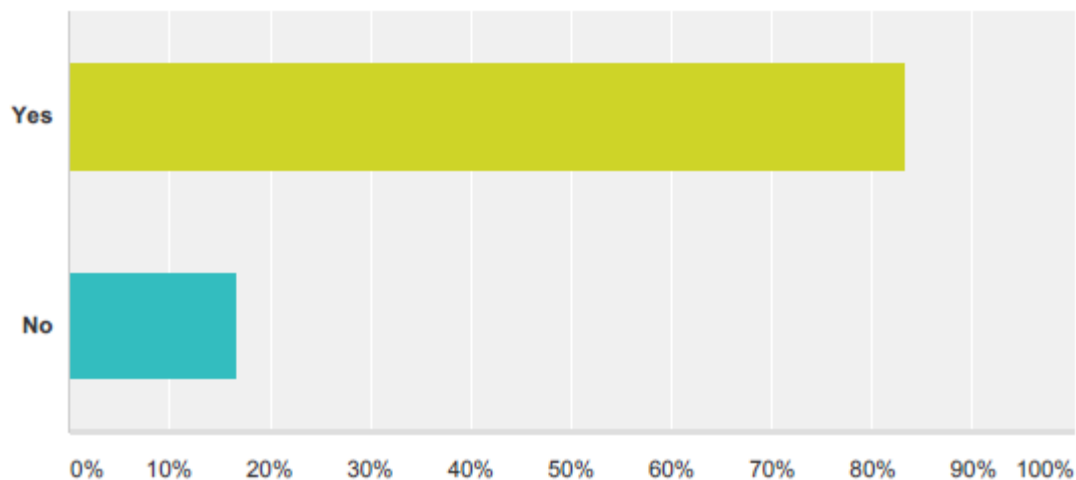

## Q2 What injury topics would you like to be addressed at 2015 IPAC meetings:

Answered: 6 Skipped: 0

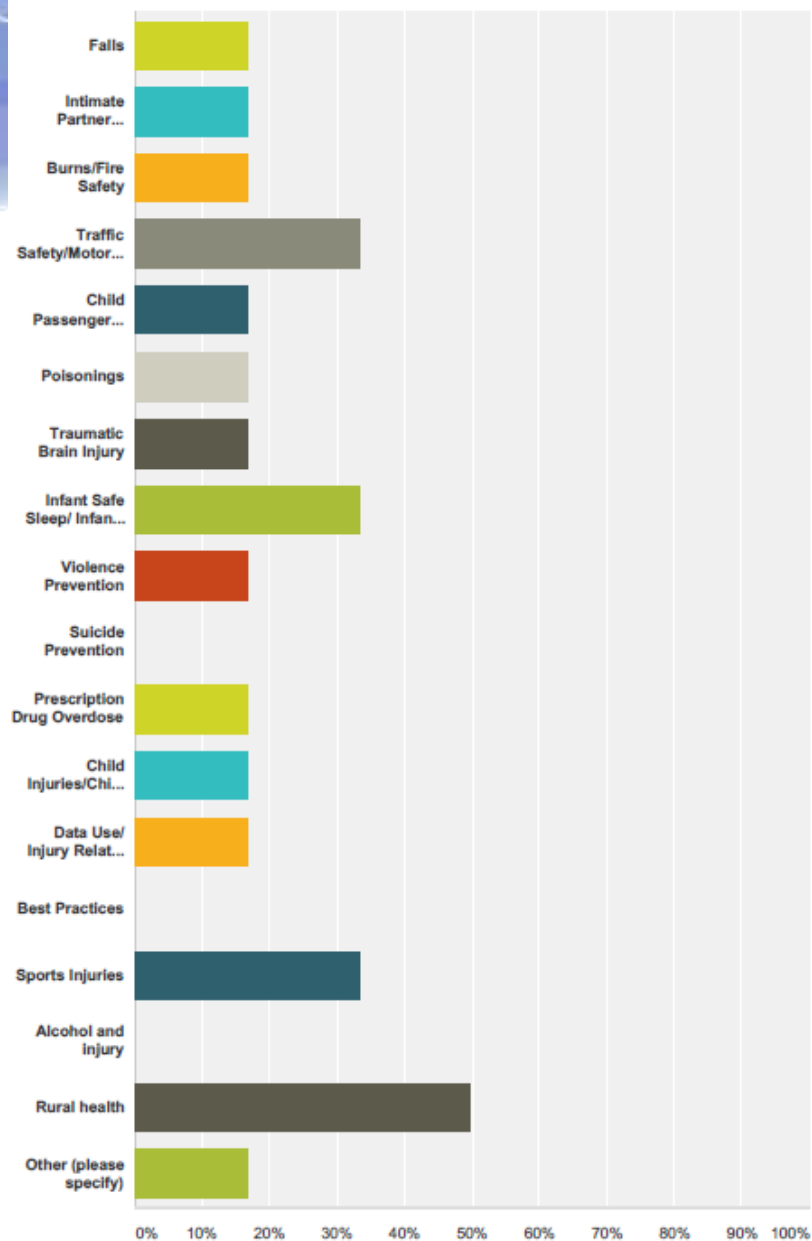

### Q3 Do you find the bi-weekly injury prevention update emails to be helpful?

Answered: 6 Skipped: 0

#### Q4 What injury topics would you like to be addressed in IPAC bi-weekly email updates:

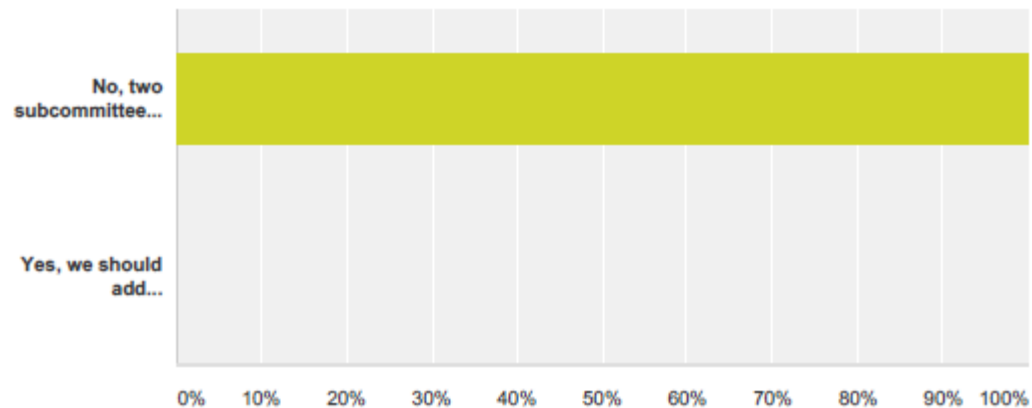

Answered: 6 Skipped: 0

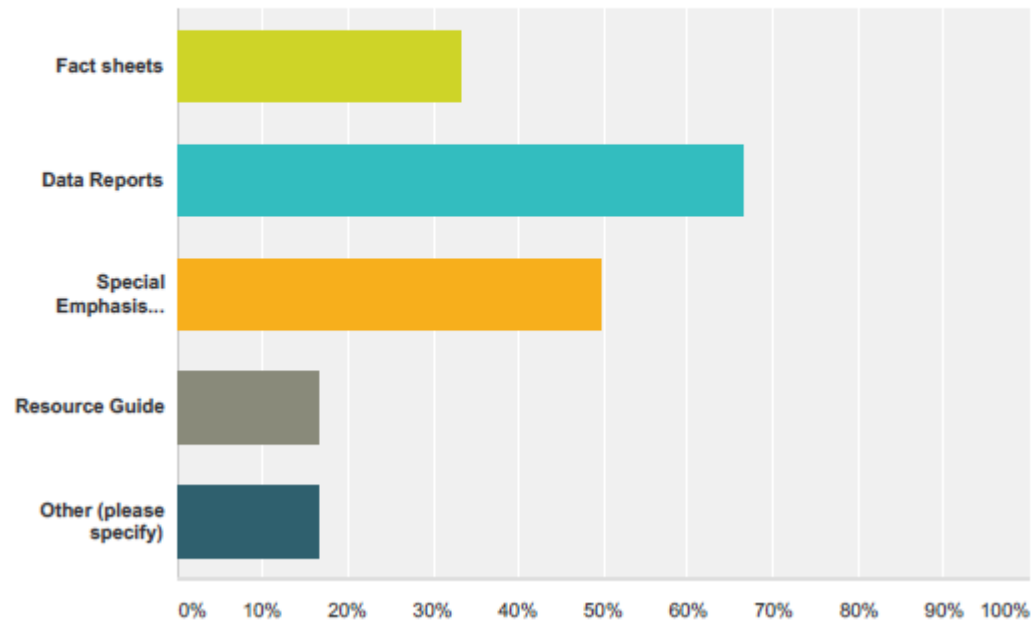

**Q5 We had two new subcommittees this year (conference planning and state plan subcommittees). Do you think we should have more subcommittees? If so, what subcommittee topics would you suggest?**

Answered: 6 Skipped: 0

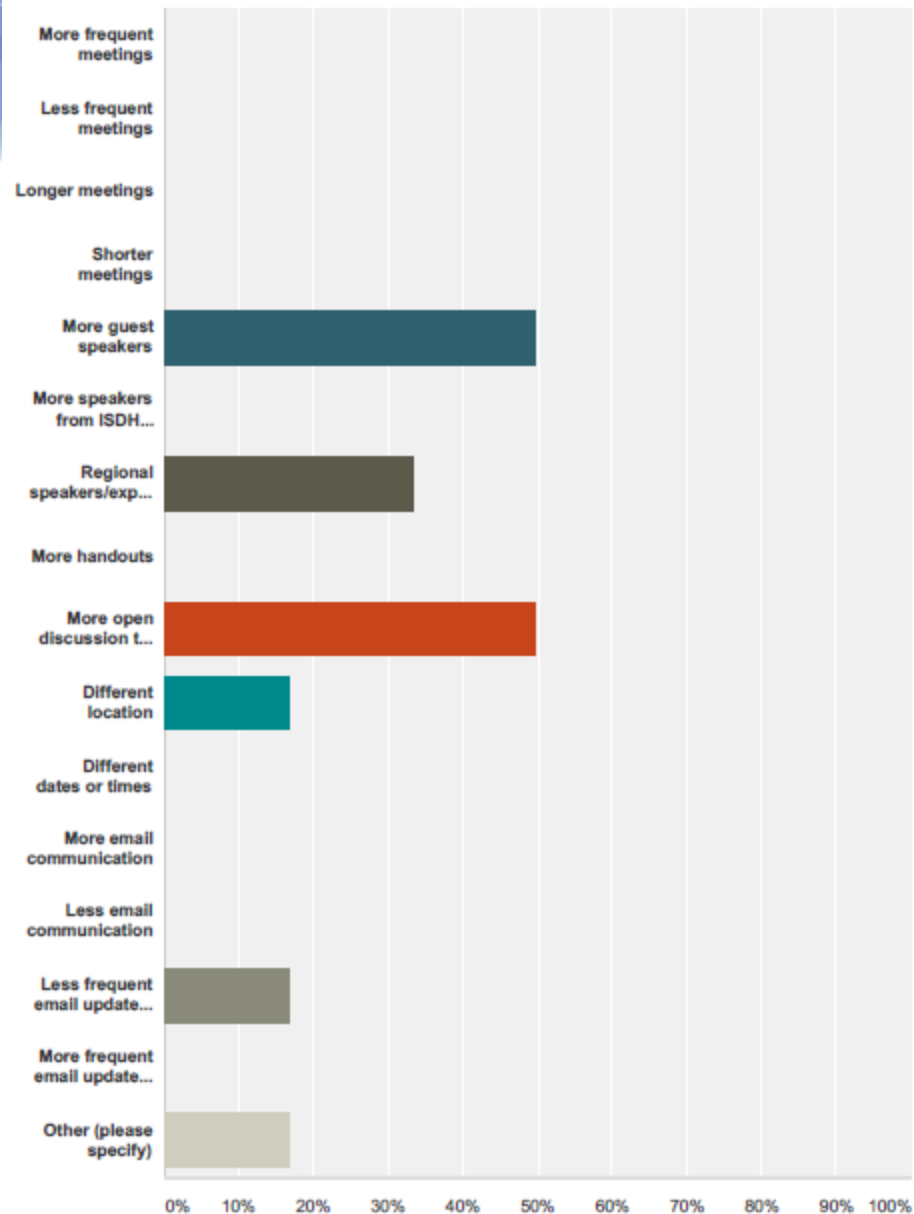

## Q6 What types of reports or handouts would benefit your organization?

Answered: 6 Skipped: 0

## Q7 Suggestions for improving IPAC meetings and IPAC related communication:

Answered: 6 Skipped: 0

- Calendar of Events

## NATIONAL AND STATE INJURY FACTS

Injuries are caused by acute exposure to physical agents, such as mechanical force or energy, heat, electricity, chemicals, and ionizing radiation in amounts or at rates that cause bodily harm. Injury may either be unintentional or intentional (violence-related, including assault, homicide and suicide) and can lead to death, disability, and lifelong health consequences. While death is the most severe outcome of injury, the injury pyramid provides a visualization of the reality that injury-related deaths represent a small percentage of the injury spectrum.

For instance, the full impact of motor vehicle crashes and collisions in the United States in 2012 includes:

### 2015 Calendar of Injury Prevention Observances and Events

[2015 Calendar](#)

### Indiana Injury Facts

Injury Mortality:

- Injury is the leading cause of death for Hoosiers ages 1 through 44 years, and the fifth leading cause of death overall.
- In 2013, there were 4,409 injury deaths at an age-adjusted rate of 65.93 per 100,000.
- Of the 4,409 injury deaths, 2,898 were unintentional in nature, occurring at an age-adjusted mortality rate of 44.1 per 100,000.
- The estimated medical and work loss lifetime costs associated with unintentional fatal injuries in Indiana in 2010 totaled \$2,503,747,000.
- The leading causes of unintentional injury death in Indiana in 2013 were poisoning (919 deaths), motor vehicle collisions (800 deaths), and falls (418 deaths).
  - Unintentional suffocation was the leading cause of injury death among infants (<1 year of age)
  - Unintentional motor vehicle traffic was the leading cause of injury death among children, youth, and young adults ages 1-24 years

# 2015 Calendar of Injury Prevention Observances and Events

## Color Coding Key:

	Injury Prevention Month Long Observances		ISDH Holiday - Office Closed
	NHTSA/ Traffic Safety Observances		Conference / Meeting
	Intentional Injury Awareness Observances		ISDH Meetings (IPAC, INVDRS Board Meetings, ITN and ISTCC)
	Poisoning/ Medication Safety Observances		
	Fire/Burn Safety Observances		
	Occupational Safety Observances		
	Other Injury and Safety Observances		

## Disclaimer:

Information appearing in this document does not represent endorsement by the Indiana State Department of Health, Trauma and Injury Prevention Division, which is not responsible for naming or approving national health observances.
